Mission

Our mission is to improve care for advanced COPD patients through the ICLEAR-EU model, integrating palliative care seamlessly into respiratory care across various European healthcare systems.

Solution

By prioritising a patient-centred and family-centred approach the EU PAL-COPD solution will empower patients as active partners in shared decision-making.

Implementation

To implement ICLEAR-EU into respiratory care, the EU PAL-COPD consortium will conduct the first large-scale international clinical trial in 18 hospitals across six European countries.

ICLEAR-EU service model

Identification of patients and their palliative care needs

Communication about goals of care and sharing with patient, family and team

Shared decision-making of **Levels of Escalation**

Advance care planning

Ongoing **Review** of needs and palliative care

Partners

EU PAL-COPD is funded by the European Union (grant no. 101136621) and supported by Innovate UK and the Swiss State Secretariat for Education, Research and Innovation (SERI). Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union or the European Health and Digital Executive Agency (HADEA). Neither the European Union nor the granting authority can be held responsible for them.
